Additional copies of the *Discussion Paper*, *Background Data* and Commission *Information Kit* are available through the Commission on the Future Development of the Universities of Ontario, 14th Floor, 101 Bloor Street West, Toronto, Ontario, M5S 1P7; (416) 965-8551.

PREFACE

The summary data in the accompanying tables and charts have been used in the discussion paper, "Ontario Universities 1984: Issues and Alternatives" and are presented here to provide background data for the use of respondents to the discussion paper.

Part I displays data aggregated at the provincial level. The data show some of the achievements of the Ontario universities and provide comparisons of Ontario with the rest of Canada. Section 1 of Part I displays data on enrolment and records the considerable achievement of Ontario universities in accommodating a five fold increase in students over the period 1962 to 1982. Section 2 shows the mix of programs offered by the universities (and the change in the mix over the most recent years). Section 3 displays participation rates over the period 1962 to 1982 and highlights two facts: first that Ontario now has the highest participation rate of any Canadian province and secondly the dramatic increase in female participation rates over the period. Section 4 provides some data on the employment record of university graduates while Section 5 deals with university research. It should be noted that Ontario has consistently accounted for 41 percent, or more, of Canadian university research although accounting for only 35% of the Canadian population. Finally, Section 6 includes data on the current age profile of the faculty in Ontario universities.

Part II displays data showing the current differences among the Ontario universities. Section 1 of Part II shows the relative concentration of each institution at the undergraduate level while Section 2 displays similar information at the graduate level. Section 3 provides data on the differences in calibre of the entering students expressed in terms of entrance marks. Section 4 gives an indication of the research intensiveness of the institutions. Finally, Section 5 displays the age profile of faculty for each institution.

The data contained in this volume are the latest available at the time of writing. Some preliminary data for 1983-84 are becoming available. The latest data available will be used in the studies performed in support of the final report of the Commission.

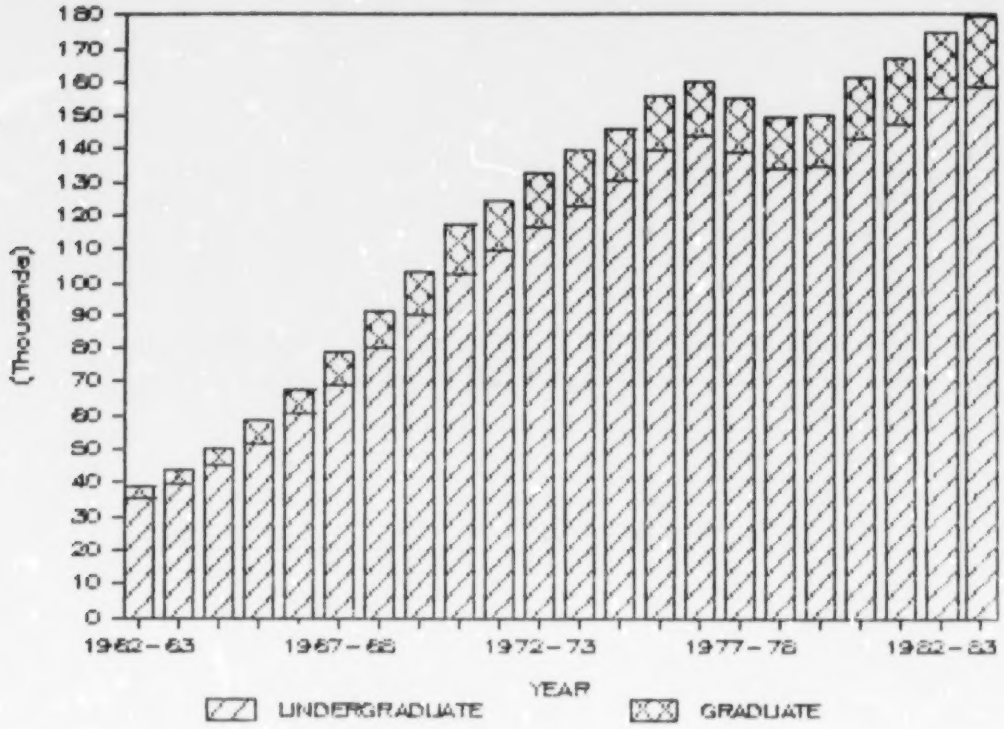
* PRELIMINARY DATA

† For all years, Ontario Bible College, Royal Military College and Richmond College have been excluded.

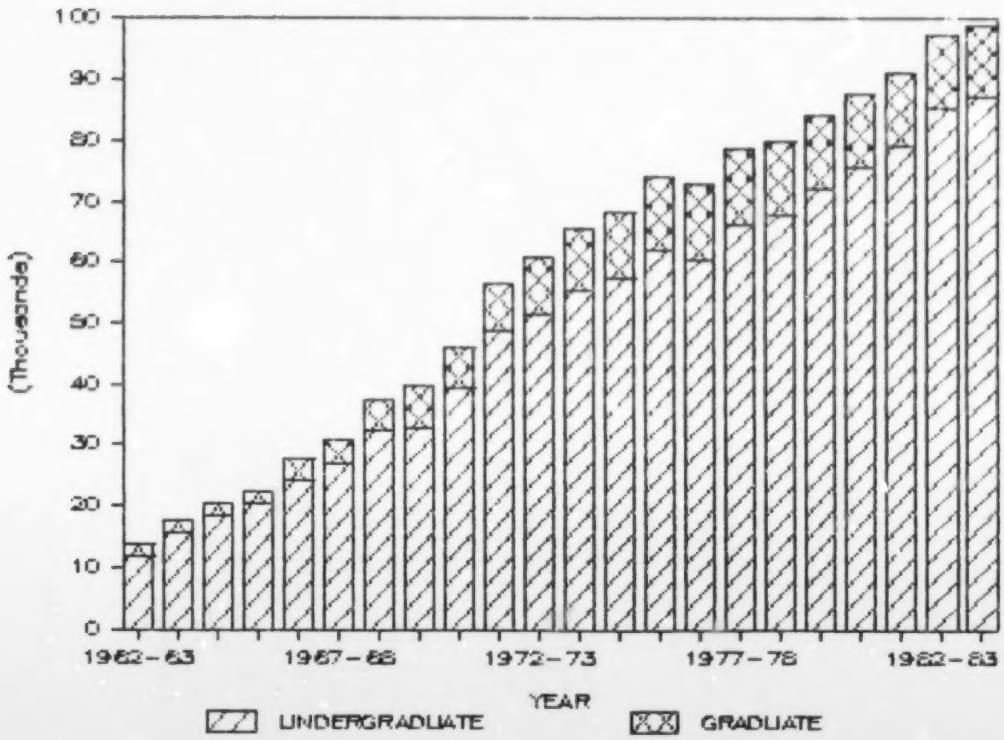
PART I FIGURE 1A

FULL-TIME ENROLMENT



PART I FIGURE 1B

PART-TIME ENROLMENT



SECTION 2

RANGE OF PROGRAMS OFFERED

In the following tables, Ryerson Polytechnical Institute and the Ontario College of Art have been omitted since all of their programs are unique and do not appear in other institutions. Data for these institutions appear in Part II Section 1.

In examining the tables it should be noted that while Arts enrolments and Science enrolments are reported separately there is also a substantial enrolment in a combined category Arts and Science. The bulk of this enrolment is attributable to the University of Toronto.

Since the source of these data was the version of the USIS data base maintained by the Ministry of Colleges and Universities, their program categories were used. In particular the "Other" category includes a wide variety of programs such as Optometry at Waterloo, Hotel and Food Administration at Guelph, and Secretarial Science at Western.

[1] In 1982, visa students were no longer eligible to receive an Ontario Scholar award. Therefore, those schools which had a high visa enrolment may show a drop in the number of Ontario Scholars although the number admitted with 80% or greater in Grade 13 may not have changed.

On peut se procurer d'autres exemplaires du *Document de travail*, des *Statistiques* et de la *Trousse de renseignements* auprès de la Commission chargée d'étudier l'avenir des universités de l'Ontario, au 101, rue Bloor ouest, 14e étage, Toronto (Ontario) M5S 1P7, nº de tél. (416) 965-8551.

PRÉFACE

Les données contenues dans les tableaux et les graphiques ci-joints ont été utilisées dans le document de travail intitulé *Les universités de l'Ontario en 1984: Questions et options* et sont présentées ici à l'intention des intervenants qui peuvent s'en inspirer pour préparer leurs mémoires sur le document de travail.

La partie I contient des statistiques à l'échelle provinciale sur certaines facettes de la performance des universités de l'Ontario et établit des comparaisons entre l'Ontario et le reste du Canada. À la section 1 de la partie I figurent des données sur les effectifs et la performance spectaculaire des universités ontariennes, qui ont quintuplé leur effectif entre 1962 et 1982. La section 2 présente la gamme des programmes offerts dans les universités de l'Ontario (et les changements qui se sont opérés au cours des dernières années). La section 3 donne les taux de fréquentation universitaire de 1962 à 1982 et fait ressortir deux faits: premièrement que de toutes les provinces du Canada, l'Ontario est celle qui a le taux de fréquentation universitaire le plus élevé et deuxièmement l'augmentation considérable du taux de fréquentation universitaire parmi les femmes pendant la même période. La section 4 donne quelques chiffres sur l'insertion professionnelle des diplômés des universités et la section 5 porte sur la recherche universitaire. Il est à noter qu'une proportion constante de 41% ou plus de la recherche universitaire effectuée au Canada se fait en Ontario, alors que cette province ne compte que pour 35% de la population du pays. Enfin, la section 6 présente les profils d'âge des enseignants des universités de l'Ontario.

La partie II met en relief les différences qui existent actuellement entre les universités de l'Ontario. La section 1 fait ressortir les domaines de spécialisation relative des établissements au premier cycle et la section 2 en fait autant pour les deuxième et troisième cycles. On peut voir à la section 3 les différences de calibre des étudiants qui entrent à l'université d'après les notes obtenues en 13^{e} année. La section 4 donne une idée de l'importance de la recherche qui se fait dans les différents établissements. La section 5 présente le profil d'âge des enseignants de chaque établissement.

Les chiffres qui figurent dans la présente brochure sont basés sur les données les plus récentes dont nous disposions au moment de la rédaction de ce texte. Des chiffres provisoires pour l'année 1983-1984 commencent à sortir. Le rapport final de la Commission s'appuiera sur des statistiques à jour.

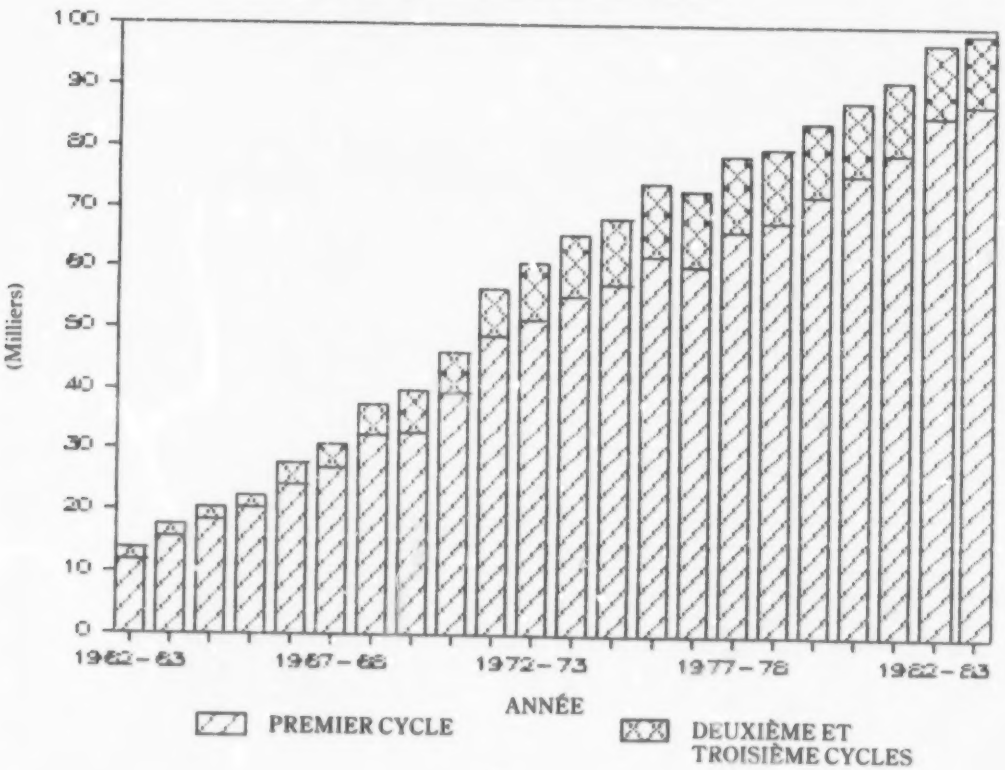
PARTIE I FIGURE 1B
EFFECTIF À TEMPS PARTIEL



SECTION 2

GAMME DES PROGRAMMES OFFERTS

Les tableaux qui suivent ne contiennent pas de données sur l'Institut polytechnique Ryerson et l'Ontario College of Art puisque tous les cours qu'ils offrent sont uniques en leur genre et ne sont pas dispensés dans d'autres établissements. Les données relatives à ces établissements figurent à la section 1 de la partie II.

Les lecteurs sont priés de noter que les effectifs des programmes d'arts et de sciences sont déclarés séparément, mais qu'il y a également un important effectif dans la catégorie arts et sciences, dont la majeure partie se trouve à l'Université de Toronto.

Vu que ces chiffres sont tirés de la base de données du USIS (système d'information statistique sur la clientèle universitaire) administrée par le ministère des Collèges et Universités, on en a utilisé les catégories de programmes. La catégorie "Autres" en particulier comprend une grande diversité de programmes, comme l'optométrie, l'administration hôtelière et la restauration, et le secrétariat, offerts respectivement à Waterloo, Guelph et Western.

SECTION 4
DONNÉES COMPARATIVES CONCERNANT L'EMPLOI

PARTIE I TABLEAU 4

TAUX DE CHÔMAGE

SOURCE: SERVICES DES STATISTIQUES DU MINISTÈRE DE L'ÉDUCATION

	Diplômés des universités	Population active totale de l'Ontario (tranche d'âge de 20 à 24 ans)
1982 [1]	11.2%	18.7%
1979 [1]	5.8%	10.7%
1975 [2]	7.4%	8.6% [4]
1974 [3]	5.8%	6.7% [4]

[1] Une seule enquête sur l'insertion professionnelle des étudiants a été faite pour chacune de ces années.

[2] Enquête auprès des diplômés de 1975 faite en juin 1976.

[3] Enquête auprès des diplômés de 1974 faite en juin 1975.

[4] Cette enquête n'a pas révélé le nombre de personnes qui attendaient que leur emploi commence ou qu'on les rappelle. Cette catégorie est normalement incluse dans la catégorie des chômeurs lorsqu'on calcule les pourcentages de la population active

[1] En 1982, les élèves titulaires d'un visa d'étudiant n'avaient plus le droit de recevoir de bourse du Mérite scolaire de l'Ontario. Par conséquent, le nombre des diplômés du Mérite scolaire de l'Ontario des écoles qui comptaient un grand nombre d'élèves de cette catégorie peut avoir baissé sans que le nombre d'élèves ayant obtenu 80% ou plus en 13e ait changé.

SECTION 5

PROFIL D'ÂGE DES ENSEIGNANTS PAR ÉTABLISSEMENTS

Les graphiques qui suivent sont fondés sur un programme spécial exécuté par Statistiques Canada à partir de sa base de données UCASS. Certaines universités ontariennes n'avaient pas encore déclaré leurs données pour 1983; par conséquent, le programme est basé sur les chiffres de 1982.
